

SATELLITE ANTENNAS

TRK-S25

18" x 20" DIRECTV® Multi-Satellite Dish Antenna

TRK-S25

18" x 20" DIRECTV® Multi-Satellite Dish Antenna

HOW CAN I GET MORE OUT OF MY DIRECTV® PROGRAMMING?

The TERK TRK-S25 is a DIRECTV Multi-Satellite Dish Antenna that will help you get the most out of your DIRECTV® programming. It provides three integrated LNBs so you can receive all available DIRECTV® programs, including HDTV and DIRECTV PARA TODOS™ programming. In addition, it saves you money by eliminating additional hardware installation that you would need to receive these services. The TRK-S25 features four identical outputs letting you connect up to four receivers for a household system, and its compact size makes it an ideal choice to use with RVs and motor homes.

HOW IMPORTANT IS QUALITY WHEN CHOOSING A DIRECTV® ANTENNA?

A DIRECTV approved antenna is a necessity if you are looking to receive the best from DIRECTV® service. TERK's TRK-S25 Multi-Beam Dish is a high-performance solution for receiving the best quality signal. It combines ease of installation with versatility, quality and performance. Its 18 x 20 inch size makes it easy to maneuver and its triple-head LNB, with built-in multi-switch, are completely integrated, making installation easier. The TRK-S25 can also be installed faster with its refined and improved mounting system and its three-way tilt, for easier rotation.

KEY FEATURES:

Easy Installation

- Refined and improved mounting system enables fast and easy installation
- Integrated LNBs and multi-switch minimizes the need for wire
- Easy to maneuver 18 x 20 inch size
- Eliminates additional hardware installations

Quality & Performance

- Third feed location (LNB) affords DIRECTV customers the option of HDTV programming from the new 110° orbital location
- Improved dish geometry for a smaller dish without sacrificing signal strength
- High-quality components for excellent performance
- Low signal loss for superior sound and picture
- Metal dish ensures durability

Applications

- For consumers who want to receive all current and future DIRECTV® satellite programming

SPECIFICATIONS:

The TRK-S25 is a DIRECTV® Multi-Satellite Dish Antenna

Antenna:

Dimensions: H 18.1" W 20.4", active area
Pointing Accuracy: <1.0°
Input Frequency Range & Polarization:
12.2-12.7GHz; LHCP, RHCP
Beam Separation: 10°
Co-Pol. Antenna Gain (12.2 GHz):
Peak Gain: 33.5dBi typical
Gain Variation, between feeds: 0.9dB max

Internal Multi-Switch:

Water/Moisture/UV Proof:
Multi-switch 13V/18V DC Switching Range
Sat A (101°): LHCP, RHCP
Sat C (110°): LHCP
Sat B (119°): LHCP, RHCP

Temperature Range:

Operational: -30 to +125F
Storage: -50 to +150F

LNB:

Polarization:
Sat A (101°): LHCP, RHCP
Sat C (110°): LHCP
Sat B (119°): LHCP, RHCP
Input Frequency Range: 12.2 to 12.7GHz
Input Power Range 500MHz:
-87 to -70dBm
Output Frequency Range:
950 to 1450MHz
L.O Frequency: Sat A and Sat B: 11.25GHz
Sat C: 11.5416GHz
Noise Figure: ≤1.1, max: 0.9 goal
Operating Voltage Range at LNB Input:
LHCP: 14.5 to 21V
RHCP: 9.5 to 14.0V
Min Bias Current to LNB: 30mA
Max Bias Current to LNB: ≤ 200mA
